How I got associated with Excella?

Professionally I got acquainted with Mr.Rakesh Koul and became one of his best and intimate friends as many of our beliefs & Values are exactly the same. Though Rakesh is younger, I admire him for his Charisma, Courage and Humility. It was his dream that I should be associated with him/Excella which I could not resist.

Why I Chose to become an Excellain?

I was fascinated by Rakesh's Vision to Create a Great Organization in Excella and was itching to join Excella ever since I heard about Excella. The achievements were so inspiring that Excella was a 'Winner-in-the-Making' right from its inception. I was sure that in the ambience provided by Excella, I can be at my best - professionally and enjoy the job as well especially in the final 10 years of my career.
